

TIDEWATER COMMUNITY COLLEGE
From here, go anywhere.™

Municipal Separate Storm Sewer System Annual Report

Chesapeake, Norfolk, Portsmouth & Virginia Beach Campuses

Reporting Period: July 1, 2019 to June 30, 2019

General Permit No. VAR040087

Effective Date: November 1, 2018 through October 31, 2023.

(Page Intentionally Left Blank)

Annual Report Certification

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Background and Purpose

Tidewater Community College (TCC) owns and operates a municipal separate storm sewer system (MS4). The college’s MS4 consists of features such as curb and gutter, drop inlets, ditches, and stormwater management facilities to convey, treat, and ultimately discharge stormwater runoff to surface waters. The discharge of runoff from the MS4 is regulated under the Clean Water Act, as amended and pursuant to the State Water Control Law and regulations adopted pursuant thereto. TCC is authorized to discharge stormwater runoff from the Chesapeake, Norfolk, Portsmouth, and Virginia Beach campuses’ MS4s under the Virginia Stormwater Management Program regulations, Virginia Pollutant Discharge Elimination System Regulations (VPDES), and the Virginia State Water Control Law.

TCC is authorized to discharge stormwater in accordance with the General VPDES Permit for Discharges of Stormwater from Small MS4s (General Permit). As required by the General Permit, TCC has developed an MS4 Program Plan that describes the best management practices (BMPs) the college will implement to maintain compliance with the permit. The General Permit also requires TCC to submit an annual report to the Virginia Department of Environmental Quality (DEQ) no later than October 1st of each year that reports on program implementation from July 1st to June 30th of the previous year. Consistent with the requirements of the General Permit, this annual report is annually completed as summarized in Table 1.

Table 1. General information required for annual reporting.

Required Information	Location in Report
Permittee, system name, and permit number	Cover Page
Reporting period	Cover Page
Signed Certification	Page ‘i’
Annual Reporting item(s) specified for each MCM	Provided for each BMP within the following sections
Evaluation of the program implementation, effectiveness, and necessary modifications	Provided for each BMP within the following sections

Compliance Summary

The following sections include the specific annual reporting required for each of the BMPs described in the TCC MS4 Program Plan. Reported information includes the specific annual reporting required in the General Permit, along with supplemental information described in the Program Plan, as applicable, to measure effectiveness of each BMP. For use in reference to this annual report, the Program Plan is provided at the TCC stormwater management [webpage](#). The Program Plan may be updated or revised from time to time as part of an iterative process to reduce pollutant loadings and protect water quality to the MEP. TCC has evaluated the effectiveness of each program BMP, as described in the Program Plan and as applicable. Table 2 summarizes the evaluation any modifications to the MS4 Program Plan that TCC will provide in the subsequent reporting year.

Table 2. Evaluation summary for each BMP for the reporting year.

BMP # ¹	Description Summary ¹	Effective
1A	Public Education & Outreach	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
2A	Maintain dedicated webpage	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
2B	Receive/respond to public reports/input	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
2C	Public Participation Activities	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
3A	MS4 Map and Information Table	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
3B	Prohibition of nonstormwater discharges	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
3C	Perform dry weather outfall screenings	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
4A	Implement VCCS Stnds. & Specs for ESC & SWM	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
4B	Control Non-stormwater discharges (construction)	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
5A	Implement VCCS Stnds. & Specs for ESC & SWM	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
5B	Conduct annual SWM Facility Inspections	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
5C	Update SWM Facility Spreadsheet	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
5D	Report to DEQ Construction Stormwater Database	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
6A	Implement Good Housekeeping Procedures	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
6B	Conduct annual campus-wide SWPPP Evaluation	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
6C	Maintain Current Nutrient Management Plan	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
6D	Ensure contract language for controls	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
6E	Conduct MS4 employee training	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No
SC1	Chesapeake Bay TMDL Action Plan	<input checked="" type="checkbox"/> Yes / <input type="checkbox"/> No

¹ Refer to BMP section within this program plan for full description and requirements for each BMP.

Minimum Control Measure Annual Reporting

Reporting provided for each BMP described in the TCC MS4 Program Plan to address each MCM is provided below. Information provided is only that explicitly required by the General Permit and the TCC MS4 Program Plan. Please refer to the Program Plan for additional information for each BMP.

MCM 1: Public Education and Outreach

Annual reporting required for each BMP to address MCM 1, as described in the General Permit and MS4 Program Plan, is provided below.

BMP 1A – Public Education & Outreach Plan

Annual reporting associated with this BMP requires:

- ✓ A list of the high-priority stormwater issues TCC addressed during the reporting year (Table 1A-1).
- ✓ A list of the strategies used to communicate each high-priority stormwater issue (Table 1A-1).
- ✓ The public survey results described for use as a measure of effectiveness (Table 1A-2).

Table 1A-1. Reporting for high priority stormwater issues addressed during the reporting year.

High Priority Stormwater Issue	Strategy
1. General public education on: (1) stormwater impacts to surface waters and (2) steps to reduce pollution.	Traditional Written Materials (brochure)
2. Illicit discharge prohibition/enforcement on the TCC campus disciplinary implications, hazards and proper waste disposal.	Media Materials (Closed circuit TV slides)
3. Increase applicable staff's knowledge regarding pollutants of concern for the Chesapeake Bay TMDL.	Traditional Written Materials (brochure)

Table 1A-2. Reporting for high priority stormwater issues addressed during the reporting year.

Results from Public Survey		
Two initial baseline surveys: Initial surveys of the permit cycle will be distributed in Fall of 2019.		
Date Distributed: N/A	Number of Respondents: N/A	Average Score: N/A

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

MCM 2: Public Involvement and Participation

Annual reporting required for each BMP to address MCM 2, as described in the General Permit and MS4 Program Plan, is provided below.

BMP 2A – Dedicated MS4 Webpage

Annual reporting associated with this BMP requires:

- ✓ The current TCC MS4 Program and stormwater pollution prevention webpage address and a description of updates implemented within the reporting year. A description of updates implemented to the webpage within the reporting year; and
- ✓ Indication of the completion of an annual review of the webpage to ensure the required information to be posted is maintained and up to date.

Table 2A-1. Reporting for high priority stormwater issues addressed during the reporting year.

Dedicated Stormwater Webpage Reporting	
Link to current MS4 Program and Stormwater pollution prevention webpage: https://www.tcc.edu/about-tcc/leadership-governance/stormwater-management/	
An annual review of the website conducted to ensure all information required to be posted on the website has continued to be maintained?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Description of updates implemented during the reporting year: TCC has updated various documents on the stormwater-dedicated webpage, including the posting of the current MS4 Program Plan, the new General Permit and coverage letter, the VCCS Standards and Specifications for ESC and SWM, and the updated Nutrient Management Plan. Additional text will also be provided on the page to more explicitly solicit program comments.	
Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 2B – Procedures for Receipt/ Response to Public Reports/Input

Annual reporting associated with this BMP requires:

- ✓ Each potential illicit discharge report and percentage of reports closed;
- ✓ Each instance of public input and percent for which TCC provided response; and
- ✓ Assessment if all illicit discharges were not closed or all input did not receive response.

Illicit Discharge Reports¹		
Number of instances: 0	Number of instances closed: 0	Percent of instances closed: N/A
Were 100% of instances of illicit discharge reports closed?		N/A
Public Input on Program Plan²		
Number of instances: 0	Number of responses: 0	Percent of instances responded to: N/A
Was a response provided to all instance of public input?		N/A

¹ Illicit discharge reports are provided in Appendix A, if > zero instances.

² Public input and response documentation is in Appendix B, if > zero instances.

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If no, please described necessary BMP modifications to improve effectiveness:	
To encourage public reporting of illicit discharges and input on the TCC stormwater program, additional information has been provided on the stormwater-dedicated webpage. The link to the webpage will also be provided on educational material described in BMP 1A.	

BMP 2C – Public Involvement/Participation Activities

Annual reporting associated with this BMP requires:

- ✓ A description of the activities;
- ✓ A report of the metric to measure the benefit to water quality; and
- ✓ An evaluation as to whether or not the activity is beneficial to improving water quality.

Public Involvement/Participation Activities			
Involvement Type¹	Description of activity	Report on the Metric to measure benefit to water quality	Beneficial to Improving water quality?
Educational Events	Stormwater booth at Chesapeake Campus Earth Day Celebration	Approx. 100 bottles and brochures with stormwater messages distributed	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Pollution prevention	Install/maintain cigarette butt stations with stormwater message displayed on them.	50 stations inspected and maintained	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Pollution prevention	Placement and maintenance of storm drain markers at storm sewer system inlets	Markers at > 20% of inlets maintained	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Educational Events	Richmond VCCS Conference presentation/discussion/collaboration regarding MS4 compliance strategies amongst VCCS MS4 colleges. and TMDLs. (June 4, 2019)	All MS4 VCCS college participated (29 attendees). Topic of discussion focused on stormwater quality MS4 program implementation.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

¹ A minimum of two involvement types must be used annually.

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

MCM 3: Illicit Discharge Detection and Elimination

Annual reporting required for each BMP to address MCM 3, as described in the General Permit and MS4 Program Plan, is provided below.

BMP 3A – Maintain MS4 Map and Information Table

Annual reporting associated with this BMP requires:

- ✓ A confirmation statement that the MS4 map and information table have been updated to reflect any changes to the MS4 occurring on or before June 30th of the reporting year;

Certification Statement: MS4 Map & Information Table Updates	
<p>“In accordance with the General Permit and the TCC Program Plan, TCC confirms as part of this annual report that the MS4 map and information table have been updated to reflect any changes to the MS4 occurring during the reporting year.”</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
<p>Does the measure of BMP effectiveness require Program Plan modification?</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 3B – Prohibition of Unauthorized Nonstormwater Discharges

Annual reporting associated with this BMP includes reporting requirements for BMP 3C, in addition to the following:

- ✓ The number of illicit discharges purposefully caused by a member of the TCC public;
- ✓ An assessment, when applicable, of any disciplinary action in context to the protection of water quality.

Illicit Discharge Prohibition Enforcement		
(If applicable, instances are added below of illicit discharges purposefully caused by the TCC Public)		
No. <input type="text" value="Add Instance"/>	Disciplinary action taken? (Yes / No)	Description of action taken
Total number of instances for current reporting year.		0
Total number of instances for last reporting year.		1
Total number of instances two years previous.		0
Total number of instances three year prior.		1
Does trend indicate the BMP is ineffective?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>If no, please described necessary BMP modifications to improve effectiveness:</p> <p>To encourage public reporting of illicit discharges, additional information, including a reporting form, has been provided on the stormwater-dedicated webpage. The webpage link will also be provided on educational material described in BMP 1A that provides information for recognition and reporting of illicit discharges.</p>	

BMP 3C – Maintain, Implement, Enforce IDDE Written Procedures (Includes Screening)

Annual reporting associated with this BMP requires:

- ✓ The total number of outfalls screened during the reporting period as part of the dry weather screening program; and
- ✓ A list of illicit discharges to the MS4 including spills reaching the MS4. Each instance of illicit discharge will be documented using the “IDDE Tracking Form” in the *TCC Staff Handbook of Good Housekeeping and Pollution Prevention* to include the following information:
 - The source of illicit discharge;
 - The dates that the discharge was observed, reported, or both;
 - Whether the discharge was discovered by the permittee during dry weather screening, reported by the public, or other method (describe);
 - How the investigation was resolved;
 - A description of any follow-up activities; and
 - The date the investigation was closed.
- ✓ An annual assessment of the percentage of detected illicit discharges that are eliminated, including any necessary modification(s) needed for the *TCC Staff Handbook of Good Housekeeping and Pollution Prevention* for cases where a detected illicit discharge was not eliminated. A schedule for completing any modification will also be provided.

Outfall Screening & IDDE Procedure Effectiveness	
Total number of outfalls screened as part of dry weather screening program.	8
Total number of TCC outfalls.	8
Were 100% of outfalls screened during the reporting year?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Effectiveness Assessment for Addressing Illicit Discharges	
Were all instances of identified illicit discharge listed in Appendix A closed?	N/A

MCM 4: Construction Site Stormwater Runoff Control

Annual reporting required for each BMP to address MCM 4, as described in the General Permit and MS4 Program Plan, is provided below.

BMP 4A – Address Discharge from Regulated Construction Site Stormwater Runoff

Annual reporting associated with this BMP requires:

- ✓ A confirmation statement, as a result of the annual assessment for effectiveness, that land disturbing projects that occurred during the reporting period have been conducted in accordance with the current DEQ-approved standards and specifications for ESC.
 - If one or more of the land disturbing projects were not conducted with the DEQ-approved standards and specifications, an explanation as to why the projects did not conform to the approved standards and specifications.
- ✓ Total number of ESC inspections conducted; and
- ✓ The total number and type of enforcement actions taken.

Certification Statement: Adherence to the VCCS Standards & Specifications for ESC	
Confirmation Statement: “In accordance with the General Permit and the TCC Program Plan, TCC confirms that land disturbing projects that occurred during the reporting period have been conducted in accordance with the latest DEQ-approved standards and specifications for Erosion and Sediment Control.”	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If no is answered above, identify the project with an explanation as to why: During compilation of information for this BMP, it was identified that a land disturbance project (State Project Number 260-A5260-010 that disturbed +/- 8,750 SF) had not been fully conducted consistent with the latest VCCS Standards and Specifications for ESC and SWM, specifically Section 4.2.1 regarding VCCS ESC inspections. At this time, the project has been completed and the site is stabilized. No illicit discharges were observed, nor complaints received, resulting from the project. Investigation finds the lack of VCCS ESC inspections being performed for the project was facilitated as a result of disruption of communication between the A/E on record and consultant plan reviewer.	

ESC Inspections & Enforcement Summary	
Total number of ESC inspections conducted: 0	
Were any enforcement actions taken during the reporting year?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>If no, please described necessary BMP modifications to improve effectiveness: Modifications are reflected in the latest versions of the VCCS Annual Standards and Specifications for ESC and SWM to provide a mechanism to prevent the issue described in this BMPs annual reporting for State Project Number 260-A5260-010. Specifically, Section 3.4 of the Standards and Specifications that requires a preconstruction meeting that must have key individuals in attendance to ensure compliance with the Standards and Specifications, including the VCCS Project Manager and VCCS Inspector. Each of these individuals must be identified on the VCCS Land Disturbance Preconstruction Meeting Form (LD-03) in Appendix D-2 of the Standards and Specifications. Signed acknowledgements are required on the LD-03 form by both the contractor and the VCCS Project Manager. The current Standards and Specifications, relatively new to the VCCS colleges, will be promoted with posting on the college's website. VCCS will also be providing an educational session specific to the Standards and Specifications at a statewide conference on October 29, 2019.</p>	

BMP 4B –Controls to Prevent Nonstormwater Discharges during Land Disturbance

Annual reporting associated with this BMP requires:

- ✓ The total number of illicit discharge originating from land disturbance activity of the total illicit discharges reports listed in Appendix A; and
- ✓ Any potential changes to the subsequent annual standards and specifications to prevent future occurrences.

Illicit Discharge from Land Disturbance Activity	
Were there any instances during the reporting period of illicit discharges originating from land disturbance activity?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

MCM 5: Post-construction SWM for Development

Annual reporting required for each BMP to address MCM 5, as described in the General Permit and MS4 Program Plan, is provided below. Please refer to the TCC MS4 Program Plan for specific BMP information.

BMP 5A – Address Post-construction Stormwater Runoff

Annual reporting associated with this BMP requires:

- ✓ A confirmation statement that land disturbing projects that occurred during the reporting period have been conducted in accordance with the current DEQ-approved standards and specifications for SWM.

Certification Statement: Adherence to the VCCS Standards & Specifications for SWM	
Confirmation Statement: “In accordance with the General Permit and the TCC Program Plan, TCC confirms that land disturbing projects that occurred during the reporting period have been conducted in accordance with the latest DEQ-approved standards and specifications for Stormwater Management.”	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 5B – Implement Inspection & Maintenance Program for SWM Facilities

Annual reporting associated with this BMP requires:

- ✓ The total number of inspections (completed forms) conducted on each of TCC’s SWM facilities;
- ✓ A description of the significant maintenance, repair, or retrofit activities performed on each SWM facility, if any, to ensure it continues to perform as designed. This does not include routine activities such as grass mowing or trash collection; and
- ✓ Summary of timelines for addressing any significant maintenance identified during inspections.

SWM Facility Inspections and Maintenance	
Total number of inspections conducted on SWM facilities for the reporting year is: 27	
Was at least one inspection performed on each TCC SWM facility during the reporting year?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Was any significant maintenance, repair, or retrofit activities necessary as a result of inspection?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 5C – Maintain SWM Facilities Spreadsheet

No annual reporting necessary (see reporting for BMP 5D)

BMP 5D –SWM Facilities Reporting to DEQ

Annual reporting associated with this BMP requires:

- ✓ A confirmation statement that either: (1) TCC submitted SWM facility information through the Virginia Construction Stormwater General Permit database for those land disturbing activities for which coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities was required or (2) TCC did not complete any projects requiring coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities.
 - If information was not submitted, an explanation as to why with a schedule for submission of the required information.
- ✓ A confirmation statement that TCC electronically reported, no later than the submission date of this annual report, SWM facilities and BMPs implemented between July 1 and June 30 using the DEQ BMP Warehouse that were installed to control post-development stormwater runoff from land disturbing activities less than one acre in accordance with the Chesapeake Bay Preservation Act regulations (9VAC25-830) and for which a General VPDES Permit for Discharges of Stormwater from Construction Activities was not required and the date on which the information was submitted.
 - If information was not submitted, an explanation as to why with a schedule for submission of the required information.

Certification Statement: Report to Virginia Construction Stormwater General Permit Database (Applicable for Reporting Year)	
Confirmation Statement: “TCC submitted SWM facility information through the Virginia Construction Stormwater General Permit database for those land disturbing activities for which coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities was required in accordance with the VCCS Standards and Specifications for ESC and SWM.”	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A

¹ Not applicable since no projects were completed during the reporting year that required coverage; or if an applicable project was completed, a stormwater management facility was not installed as part of the project. See following certification statement.

BMP 5D –SWM Facilities Reporting to DEQ (continued)

Certification Statement: Report to Virginia Construction Stormwater General Permit Database (Not Applicable for Reporting Year)	
Confirmation Statement: “TCC either did not complete any projects during the reporting period requiring coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities; or, if a project was completed, a stormwater management facility was not installed as part of the project.”	Marked box below is confirmation <input checked="" type="checkbox"/>

Certification Statement: Reporting to the DEQ BMP Warehouse	
Confirmation Statement: “TCC reported, prior to submission of this annual report, stormwater management facilities and BMPs implemented between July 1 and June 30 of the reporting period using the DEQ BMP Warehouse that were installed to control post-development stormwater runoff from land disturbing activities less than one acre in accordance with the Chesapeake Bay Preservation Act regulations (9VAC25-830) and for which a General VPDES Permit for Discharges of Stormwater from Construction Activities was not required.”	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A

Certification Statement: Report to Virginia Construction Stormwater General Permit Database (Not Applicable for Reporting Year)	
Confirmation Statement: “TCC did not install SWM facilities and BMPs to control post-development stormwater runoff from land disturbing activities less than one acre in accordance with the Chesapeake Bay Preservation Act regulations (9VAC25-830) and for which a General VPDES Permit for Discharges of Stormwater from Construction Activities was not required”	Marked box below is confirmation <input checked="" type="checkbox"/>

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

MCM 6: Pollution Prevention & Good Housekeeping for Facilities

Annual reporting required for each BMP to address MCM 6, as described in the General Permit and MS4 Program Plan, is provided below. Please refer to the TCC MS4 Program Plan for specific BMP information.

BMP 6A –Written Procedures for Pollution Prevention/Good Housekeeping

Annual reporting associated with this BMP requires:

- ✓ A description of any illicit discharges originating from campus operations and maintenance activities, provided in reporting for BMP 3C; and
- ✓ A summary of any modifications to operational procedures in the *TCC Staff Handbook of Good Housekeeping and Pollution Prevention* to prevent future occurrences of illicit discharge(s), if applicable.

Effectiveness of Program to Prevent Illicit Discharges from Campus Operations	
Were there any illicit discharges from BMP 3C reporting that originated from campus operations of maintenance activities?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 6B –SWPPPs for High Priority/ High Potential Facilities for Discharging Pollutants

Annual reporting for this BMP requires a summary of the annual campus assessment to determine if a SWPPP is required based on the criteria described in the General Permit that defines high priority facilities that have high potential of discharging pollutants.

Annual Campus SWPPP Assessment Results	
Was an annual evaluation to determine if a SWPPP is required performed?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If yes, is a SWPPP required?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 6C – Maintain/ Implement Nutrient Management Plans and Deicing Policy

Annual reporting for this BMP will include a summary of any new NMPs developed, including

- ✓ Locations and total acreage for where the NMP applies; and the
- ✓ Date of the latest DCR approval for the NMP.

Nutrient Management	
Did TCC apply nutrients during the reporting year?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>TCC implements a Nutrient Management Plan that applies to the TCC MS4 regulated campuses of Chesapeake, Portsmouth, Norfolk and Virginia Beach and covers 8.0, 5.0, 0.1, and 32.5 acres of fertilized turf, respectively. The Nutrient Management Plan is approved by the Department of Conservation and Recreation and is valid through October 10, 2021.</p>	

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 6D – Contractor Requirements to Utilize Controls to Minimize Pollutant Discharges

Annual reporting for this BMP requires:

- ✓ The number of illicit discharges originating from contractor activities.
- ✓ Summary of assessment to modify procurement procedures or the *TCC Staff Handbook of Good Housekeeping and Pollution Prevention* to prevent future instances.

BMP 6A Annual Reporting Form	
Were there any illicit discharges during the reporting period that originated from contractor activities?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

BMP 6E – Training Plan for Applicable Employees

Annual reporting associated with this BMP requires:

- ✓ The date of the most recent training event;
- ✓ The date of the prior training event (to ensure within 24 months);
- ✓ The number of employees who attended the most recent training event;
- ✓ The objective of the training event; and
- ✓ The average quiz scores from the training event. If quiz scores average less than 80%, a summary will be report of the assessment of the training event with any necessary modifications to be incorporated into future training to improve teaching of the materials.

Good Housekeeping/Pollution Prevention Training	
Date of latest training event:	December 13, 2017
Date of previous training:	December 15, 2016
Has training continued to be provided a minimum of once every 24 months?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Number of employees that attended the latest training event.	15
Number of employees identified to be required to participate in training (as defined by the general permit and program plan).	15
Percent of those identified that attended training.	100%
Does the percentage of those identified to be required to attend training attend?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Description of the objective of the latest training event: PowerPoint discussing Stormwater Pollution Prevention, including discussion of potential pollutants and best practices to prevent pollutant exposure to stormwater and the overall MS4 Program.	
Average quiz score from latest training event.	N/A

Summary of BMP Effectiveness based on Program Plan Measurable Goal	
Does the measure of BMP effectiveness require Program Plan modification?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
If no, please described necessary BMP modifications to improve effectiveness: Training quiz was conducted orally as a group with the trainees. Future training will include a quiz taken by each individual for assessing effectiveness.	

Special Conditions for Total Maximum Daily Load Waste Load Allocations

Annual reporting required for each BMP to address Special Conditions for TMDLs, as described in the General Permit, is provided below. For specific BMP information, please refer to the TCC MS4 Program Plan and TMDL Action Plans, provided on the TCC stormwater webpage described in BMP 2A, for specific BMP information.

BMP SC1 – Chesapeake Bay TMDL Action Plan

Annual reporting associated with this BMP requires the following in regards to implementation of the Action Plan:

- ✓ BMPs implemented during the reporting period;
- ✓ Progress towards meeting the required cumulative reductions;
- ✓ A list of BMPs to be implemented the following reporting year; and
- ✓ Any revisions made to the Action Plan during the reporting year.

Chesapeake Bay TMDL Action Plan Annual Reporting		
<p>BMP's implemented: As described in the TCC Phase I Action Plan, surplus reductions from existing stormwater management facilities provides reductions in excess of those required for the 2013-2018 permit cycle, as reflected below. Additional means and methods to achieve the reductions required by the end of the current permit cycle will be described in the Phase II Action Plan.</p>		
Pollutant	Reductions required (lbs./yr.) (Per 2013-2018 Action Plan)	Reductions achieved (Per 2013-2018 Action Plan)
TP	1.46	7.79
TN	6.67	40.51
TSS	638.22	3,278.81
Do achieved reductions exceed required reductions?		<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Were any revisions made to the action plan?		<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
