

ARTICULATION AGREEMENT !

AAS Graphic Design, Specialization: Advertising Design (514.01), Tidewater Community College to ! BS Graphic Design, Chowan University !

Chowan University (CU) welcomes and values transfer students from Tidewater Community College (TCC) who are appropriately prepared to pursue a baccalaureate degree.

The statements listed below constitute an articulation agreement between CU and TCC.

- Subject to the terms of this agreement, TCC graduates of an associate in applied science in graphic design are assured admission to CU with junior status. This guarantee assumes that there are no other factors in their academic or social record that might prevent acceptance.
- To be eligible for inclusion in this policy, a TCC student must have an overall GPA of at least 2.0 on a 4.0 scale and a grade of “C” or better in all TCC courses that applied toward the associate in applied science in graphic design.
- TCC graduates of an associate in applied science in graphic design who have at least a 2.0 on a 4.0 scale and a grade of “C” or better in all TCC courses that applied toward the associate in applied science in graphic design will receive up to 60 credit hours of academic credit upon admission to Chowan University.
- Courses in which “D” is the final grade and courses that were not completed or failed by the student will not be accepted for transfer by CU.
- Credit for courses earned at accredited institutions other than TCC or completed through AP, IB, CLEP, DANTES, and ACE to satisfy degree requirements at TCC will be accepted according to stated CU policies for acceptance of credit, which can be found in the CU catalog.
- TCC students may appeal unresolved issues regarding the transfer of credit to CU’s Provost and Vice President for Academic Affairs.
- Upon transfer from TCC to CU, students have the option to observe the curriculum regulations and graduation requirements in effect at the time of their admission to CU. If they choose this option, they are allowed six years to satisfy CU curriculum regulations and requirements in effect at the time of enrollment at CU. They also have the option of observing curriculum regulations and graduation requirements in effect at the time of their graduation from CU.
- TCC students who have not completed an associate in applied science in graphic design are entitled to apply for admission to CU and request an evaluation of courses to determine appropriate transfer credit. However, this does not provide the guarantee an agreement offers the student who has earned the associate in applied science in graphic design.
- TCC graduates are entitled to the same rights and privileges, including housing and registration, as native students with junior standing.
- CU and TCC will publicize the agreement.
- This agreement supersedes any previous articulation agreement.
- CU and TCC will review this mutual agreement at the written request of either institution and make adjustments or amendments when necessary for the improvement of transfer procedures.
- The agreement will remain in effect until terminated by either party upon written notice to the other party of an intention to terminate.
- The above provisions are mutually agreed to and shall go into effect when signed by the appropriate institutional representatives.
